

# As Long As I Remember

Music and lyrics Thomas Crawford

As long as I remember  
I've been trying to leave the one I love  
I've been trying to hold together on What's  
not even left of us

Just to look you in the eyes  
Scares me to death  
Wake up every night  
All soakin' wet  
I dream about the day when I find  
The strength to leave you behind

You don't wanna see  
You don't wanna hear  
What's inside of me  
Behind the fallin' tears

Afraid of what you might do  
After all the pain I put you through  
Baby please forgive me  
I did the best I could  
Better think twice before you  
Let the lion out  
Please somebody help me when you  
Hear me shout  
If you talk about leaving  
The one you love  
You better start run  
Before it eats you up

You don't wanna see  
You don't wanna hear  
What's inside of me  
Behind the fallin' tears

Sometimes you better off not  
Trying to figure out what's to come  
'Cause the truth will haunt you  
And beat you slowly like a drum

You're clinging to the picture  
Of the two of us in love  
The picture has faded,  
the colors are gone  
Left is just the ghosts of us  
in black and white

You don't wanna see  
You don't wanna hear  
What's inside of me  
Behind the fallin' tears
