

# Who Is It For

Music and Lyrics Thomas Crawford

How come you want me when I'm one foot out the door  
Say you know just what to do if I'd only stay  
Why don't you see me when I'm right here for your eyes  
I give you everything never tell you no lies  
And I wonder where is the key  
To the safety of love for me  
Give it to me

When you walk out the door  
You're more beautiful than before  
And I wonder who's it for  
The love you take out the door  
And I wonder who's it for  
The love you take out the door  
Who is it for

How come you don't seem to want the love I got  
I know you need my love, like I need your love  
You say your busy baby, busy all the time  
I say your busy baby, busy not loving me  
Wake up beauty from your hundreds years of sleep  
And give me all your love  
Give me all your love
